

NUPLA®

 **MADE IN USA**
WITH US & GLOBAL COMPONENTS

 **SAUNDERSMIDWEST** A Quality Brand of

When only the best will do, go to **NUPLA®**, the leader in U.S. manufacturing of specialty industrial grade hand tools since 1938. The pioneer and innovator of TCP (Tension - Continuous - Parallel) pultruded Nuplaglas®, NUPLA produces the strongest and safest fiberglass-handled tools available. In its 55,000 square foot facility in Sun Valley, California the company produces over 1,000 hand tools including soft-face and steel hammers, shovels, rakes, axes, non-conductive tools and replacement handles - All made proudly in the USA, by American workers.

NUPLA's history is one of invention, via the development of plastics and related technologies since the 1930's. NUPLA has continued innovating for over 80 years and has earned the reputation as the industry standard for fiberglass striking, cutting, digging and fire tools. We have earned our stripe as the manufacturer of the World's Strongest Hand Tools and we put that stripe on every tool we produce:

Nupla®, Ergo-Power®, Nuplaglas®, Smart Hammer®, Power Drive®, Strike Pro®, IMPAX®, Power Pylon®, NuPro®, Nuplabond®, and Mech/Loc® are registered trademarks of Nupla Corporation.

GET THE STRIPE™ and NuPole™ are trademarks of Nupla Corporation.

THE BEST COMPONENTS

Classic Nuplaglas® Handles

Nuplaglas Handles have been the standard of the industry for over 80 years. Thousands of strands of fiberglass encased in a proprietary resin deliver a super-duty handle. Tough enough to carry the Nupla Lifetime Warranty.

Ergo-Power® Handles

Same super-duty Nuplaglas® construction with an injection molded protective coating. Protects and extends the life of the handle and grip becomes an integral portion of the handle.

Nupla Striking Heads

Nupla molded striking heads are available in various hardnesses of non-marring polymers. Forged steel heads available in forged steel or brass, and are heat treated for specific levels of hardness.

Nupla Striking Tool Grips

SUPER GRIP

- Safest grip in the industry
- Use in all weather conditions, with or without gloves
- Classic Rubber or integrated Ergo style

SG

CUSH-N-GRIP

- Long, sleek grip
- Available in rubber

H

CIRCULAR STRIPE

- C and CS (short) sizes
- Comfortable standard grip and design
- Available in rubber or integrated molded design

C

CS

SINGLE BIT GRIP

- Provides direction accuracy for single bit axes and mauls

SB

CIRCULAR STRIPE

- CSL, long sizes
- Comfortable standard grip and design
- Available in rubber or integrated molded design

CSL

DOUBLE BIT GRIP

- For double bladed chopping tools

Best in Quality • Best in Design • Best in Performance

Only the highest quality materials go into NUPLA tools. Nuplaglas® handles are manufactured in the USA to precise specifications and carry a Lifetime Warranty. Each and every Nupla tool has been engineered, tested and retested for balance, strength and durability. With hundreds of handle length and grip combinations, Nupla can deliver the tools to maximize performance in any application.

From a precise tap to the heaviest demolition projects, we have the tool you need.

Custom Design & Colors with OEM Parts for:

- Manufacturing
- Railroads/Mining
- Fire Utilities
- Building
- Landscape
- Safety
- Construction
- Telecommunications
- Hazmat
- Roads & Highways
- Wood Working
- Military
- Automotive
- Metal Working
- Aerospace

NUPLA INNOVATIONS IN TOOLS

Nuplaglas® Composites

Nuplaglas® Composites are designed to perform like steel while maintaining the flexibility and lightweight advantages of Nuplaglas.

Integral Rebar

Patented process used in all Nupla digging tool handles providing optimum strength-to-weight ratio. Short lengths of solid fiberglass incorporated at critical stress points in the handle pultrusion process assure superior reinforcement.

Impax® Power Drive®

Dead Blow and 'Quick-Change' hammers featuring Nupla's unique Smart Hammer® Technology, which delivers precision strikes with non-marring surface protection.

Ergonomic Handle & Grip Designs

Digging tool handles designed to reduce fatigue and provide greater control of the load. Striking tools made with three grip styles in Classic Nuplaglas® and Ergo-Power®, offer the ability to match the tool to the operator and job.

Power Pylon®

A rivetless shovel connection, molded to the handle end, engineered to provide an integral fusion of a Nuplaglas® handle to the shovel blade.

HANDLES

EXTREME POWER DRIVE®

- Shot-loaded composite interior cavities fully encased in a tough polymer outer jacket
- Free flowing inner shot concentrates striking power and increases driving force
- Cast urethane face to protect hammer when striking sharp metal surfaces
- Available with one steel face for extra hard surfaces

STANDARD POWER DRIVE®

- Shot-loaded composite interior cavities fully encased in a tough polymer outer jacket
- Free flowing inner shot concentrates striking power and increases driving force
- Non-marring face protects surface being struck
- Available with one steel face for extra hard surfaces

STRIKE PRO® POWER DRIVE®

- All the dead blow features of the Power Drive in a lighter, more economical configuration
- Available in two colors for dedicated job identification

NON-CONDUCTIVE

Certified Non-Conductive Digging Tools

- Certified Non-Conductive properties combined with Nuplaglas and Power Pylon technologies provide the safest and strongest tools available
- All Non-Conductive tools undergo 100% testing at 10,000 volts to meet or exceed IEC 60900 and ASTM F1505 standards
- Power Pylon shovel blades – no shank means less breakage in the severest of conditions
- Outperforms similar solid shank blades, carrying 17% more payload

UTILITY PIKE POLES & PICKEROONS

UTILITY PIKE POLES

- Slightly heavier than aluminum, resistant to moisture, chemicals and rot
- Will not break or kink like wood and aluminum poles
- Chemically bonded hardened steel head, exceeds 3000 lbs pull strength
- Non-slip grip design for non-visual hook end orientation
- Lifetime Warranty on all Nuplaglas Classic Handles

PIKE HEAD

PICKAROON

- Drop forged head
- Non-slip grip
